Glamorous

Okay, we're honestly so overwhelmed by the beauty of this bridal shower that the only word I can say that might sum up how we feel is.... OBSESSED. I mean, this entire event is filled with so many details we could stare at it all day and find something new to love about it! The theme was inspired by the beautiful colors and scenery of the Amalfi Coast, which is where the bride and groom will be traveling to on their honeymoon. It's complete with a flower wall that will make your heart flutter, a bouquet-making station and the most decadent and delicious dessert table we've ever seen. Everything was perfectly planned and put together by [Aliana Events](#). The jaw-dropping florals were arranged by the amazing [Celio's Design](#). Keep on reading to see all the can't-miss details of this day, all captured by [Alissa Noelle Photography](#).
